

Town and Country Planning Act 1990 (as amended)

PLANNING PERMISSION GRANTED

APPLICATION REFERENCE: 24/00924/FUL

Name and address for correspondence:	Applicant name:
Mr Mike Atkinson Watergrove cgi 1 Ramsden Road Wardle Rochdale OL12 9LB	Mr Terence ConnorTEC Services (NW) Ltd

Part 1 - Particulars of Application

Date of 8 October 2024

Application:

Proposal:	Construction of three detached dwellings with garages including associated access and landscaping
Location:	Ramsden Farm , Roundthorn Road, Middleton, M24 1FT

Part 2 Compliance with Conditions

It is YOUR responsibility to comply with planning conditions. The Council's Planning Enforcement Team is responsible for investigating alleged breaches of planning control. This includes ensuring that all relevant conditions have been complied with. Effective enforcement is important to:

- Tackle breaches of planning control which would otherwise have unacceptable impact on the amenity of the area
- maintain the integrity of the decision-making process;
- help ensure that public acceptance of the decision-making process is maintained.

Whilst the majority of developers/homeowners do comply with the requirements of planning permissions, there are a number who do not. Where any planning conditions are breached, the Council can take formal enforcement action without further notice. Enforcement action could include such measures as requiring remedial works, cessation of use, or complete demolition and can cause the developer/homeowner unnecessary expense, delay and frustration. In some cases, failure to comply with planning conditions can lead to the loss of the planning permission.

Part 3 - Particulars of decision

The Rochdale Borough Council hereby give notice in pursuance of the provisions of the Town and Country Planning Act 1990 (as amended) that planning permission has been **GRANTED SUBJECT TO CONDITIONS** for the carrying out of the development referred to in Part I above.

The Council hereby permits the above development in accordance with the details given on the application form and subject to the following condition(s):

Conditions and Reasons:

- 1 The development must be begun not later than three years beginning with the date of this permission.

Reason: Required to be imposed by Section 91 of the Town and Country Planning Act 1990 (as amended).

- 2 This permission relates to the following plans and documents:

Location Plan
Received 3rd December 2024

Drawing No: 6383_24_1 Rev A - Topographical Survey
Drawing No: 6383_24_2 Rev A - Site Plans
Drawing No: 6383_24_3 Rev A - Site Sections
Drawing No: 6383_24_4 Rev A - House Types
Drawing No: 7515.02 Rev C - Landscape Proposal
Received 10th January 2025

and the development shall be carried out in accordance with the approved drawings.

Reason: For the avoidance of doubt and to ensure a satisfactory standard of development in accordance with the policies contained within the adopted Rochdale Core Strategy, the saved Rochdale Unitary Development Plan and the National Planning Policy Framework.

- 3 Notwithstanding any description of materials in the application, no above ground construction works shall take place until samples and / or full specifications of materials to be used externally on the dwellings hereby approved have been submitted to and approved in writing by the Local Planning Authority. Development shall be carried out in accordance with the approved details.

Reason: In order to ensure a satisfactory appearance in the interests of visual amenity in accordance with Policies P3 and P2 of the Rochdale Core Strategy, Policy JP-P2 of PfE and the requirements of the National Planning Policy Framework.

- 4 No development shall take place (including any demolition) until a Construction Management Plan (CMP), has been submitted to, and approved in writing by the Local Planning Authority, which shall include the following:

- i) the parking of vehicles of site operatives and visitors;
- ii) loading and unloading of plant and materials;
- iii) storage of plant and materials used in constructing the development;
- iv) the erection and maintenance of security hoarding;
- v) measures for the protection of the natural environment from accidental spillages, dust and debris including dedicated protection measures (including high visibility fencing) for the retained trees during and after construction;
- vi) noise and vibration;
- vii) a scheme for recycling/disposing of waste resulting from demolition and construction works;
- viii) wheel washing facilities; and
- ix) a lighting plan designed to direct any temporary lighting away from the Greenspace

Corridor, retained trees and hedgerow during and after construction.

The development shall be carried out in accordance with the approved CMP.

Reason: To minimise detrimental effects to the neighbouring amenities, the amenities of the area in general, detriment to the natural environment through the risks of pollution and dangers to highway safety, during the construction phase in accordance

with Policies DM1, T2, G7, G8 and G9 of the Core Strategy and the National Planning Policy Framework.

Reason for pre-commencement condition: As the proposals require ground works and engineering works an understanding will therefore be necessary of what measures will be put in place to protect the amenity of nearby residents prior to commencement of any building or engineering works on site.

- 5 No construction, demolition or associated deliveries shall take place outside the hours of 0800hrs to 1800hrs Mondays to Fridays, and 0900hrs to 1400hrs on Saturdays, and not at any time on Sundays and Bank or Statutory Holidays without prior written approval from the Local Planning Authority.

Reason: In order to protect occupiers of nearby properties from unreasonable disturbance from works connected with implementing this permission in accordance with Policies DM1 and G9 of the Rochdale Core Strategy.

- 6 No part of the development shall be occupied until details of the type, siting, design and materials to be used in the construction of boundaries, screens or retaining walls, particularly to the rear boundary of the proposed dwellings to separate the landscape buffer, have been submitted to and approved in writing by the Local Planning Authority. The approved structures shall be erected in accordance with the approved details and thereafter retained.

Reason: To safeguard the amenities of the adjoining neighbouring properties from overlooking and loss of privacy and in the interests of visual amenity and the character of the area in accordance with Policies P3 and DM1 of the Rochdale Core Strategy and the Council's Guidelines and Standards for Residential Development SPD.

- 7 No development shall commencement until an external lighting plan, if applicable, has been submitted to, and approved in writing by, the local planning authority. The approved scheme shall thereafter be maintained and operated in accordance with the approved details.

Reason: to ensure that the Greenspace Corridor is not adversely impacted upon as a result of the development in accordance with Policy G7 of the adopted Core Strategy, Policy JP-G1 of PFE, saved UDP Policy G/8 and the NPPF.

- 8 The formal link from Ramsden Farm Road to the footpath within the site as shown on Drawing No: 6383_24_2A - Site Plans shall be implemented in full accordance with the approved plans. The route shall be kept open at all times and shall not be obstructed or locked. The footpath hereby approved shall be retained and maintained for the public to use at all times thereafter.

Reason: To ensure the wider open space remains accessible for members of the public at all times in accordance with saved Policy G/8 of the UDP.

- 9 Prior to first occupation, detailed drainage design and supporting calculations shall be submitted to, and approved in writing by, the Local Planning Authority. The details shall include either construction design or as built details are submitted.

Reason: To promote sustainable development, secure proper drainage and to manage the risk of flooding and pollution. To prevent an increased risk of flooding as a result of the development and to ensure satisfactory disposal of surface water from the site in accordance with Policy G8 of the adopted Rochdale Core Strategy, saved Policy EM/7 of the adopted Rochdale Unitary Development Plan and the National Planning Policy Framework.

- 10 No clearance of trees and shrubs in preparation for (or during the course of) development shall take place during the bird nesting season (March - August inclusive) unless an ecological survey has been submitted to and approved in writing by the Local Planning Authority to establish whether the site is utilised for bird nesting. Should the survey reveal the presence of any nesting species, then no development shall take place during the period specified above unless a mitigation strategy has first been

submitted to and approved in writing by the Local Planning Authority which provides for the protection of nesting birds during the period of works on site.

Reason: In order to prevent any habitat disturbance to nesting birds in accordance with policy G7 of the adopted Rochdale Core Strategy, Policy JP-G8 of PfE and the National Planning Policy Framework.

- 11 Prior to any vegetation clearance, earth works or machinery on the site, a precautionary working measures method statement for mammals and amphibians shall be submitted to and approved in writing by the Local Planning Authority. The development shall only be implemented in accordance with the agreed details.

Reason: In order to protect wildlife from works that may impact on their habitats, pursuant to Policy G7 of the Rochdale Core Strategy, JP-G8 of PfE and the National Planning Policy Framework.

- 12 No development shall commence (including any earthworks or vegetation clearance) until a survey for Himalayan balsam has been carried out and the findings submitted to, and approved in writing by, the Local Planning Authority. If Himalayan balsam is present, a method statement detailing control measures shall be submitted to, and approved in writing by, the Local Planning Authority, prior to any earthworks or vegetation clearance. The agreed method statement shall be adhered to and implemented in full.

Reason: To ensure the invasive species are treated and eradicated to prevent them from spreading into the adjacent woodland habitat in accordance with Policy G7 of the adopted Rochdale Core Strategy, Policy JP-G8 of PfE and the National Planning Policy Framework.

Reason for pre-commencement condition: It is important that measures to deal with invasive species are determined prior to the commencement of works to ensure that any site works do not result in the spread of these species.

- 13 Notwithstanding the details shown on the approved plans and the requirements of Condition 2 of this permission, the development shall not be occupied until a landscaping scheme for the site (including elements of both 'hard' and 'soft' landscaping) is submitted to, and approved in writing by, the Local Planning Authority. Such a scheme shall include details of the proposed surface treatment of all hard surfaced areas and the type, species, siting, planting distances and programme of planting of any trees (native) and shrubs as well as details of both temporary and permanent root protective surfaces if applicable.

The landscaping works shall be carried out in accordance with the approved scheme for timing / phasing of implementation or within the next planting season following final occupation of the development hereby permitted, whichever is the sooner. Any trees or shrubs removed, dying, being severely damaged or becoming seriously diseased within five years of planting shall be replaced by trees or shrubs of similar size and species to those originally required to be planted.

Reason: To ensure that the site is satisfactorily landscaped having regard to its location within the Greenspace Corridor and the nature of the proposed development and to secure biodiversity enhancement in accordance with policies P3, DM1 and G7 of the adopted Rochdale Core Strategy and the National Planning Policy Framework.

- 14 No above ground works shall take place until a scheme of biodiversity enhancements for the site including, but not limited to, bird nesting opportunities, mammal gaps, bat bricks and bat boxes to be integrated to the fabric of the dwellings and elsewhere within the site hereby approved has been submitted to and approved in writing by the Local Planning Authority. The duly approved scheme shall be implemented in full prior to first occupation of the dwellings and retained thereafter.

Reason: In the interests of enhancing biodiversity and habitat provision within the site in accordance with Policy G7 of the adopted Rochdale Core Strategy and the National Planning Policy Framework.

- 15 The Biodiversity Gain Plan shall be prepared in accordance with the Assessment of Biodiversity Net Gain, Version 3, dated January 2025 and prepared by ERAP Ltd Consultant Ecologists.

Reason: To ensure the development delivers a biodiversity net gain on site in accordance with Schedule 7A of the Town and Country Planning Act 1990 and policies G6 and G7 of the adopted Rochdale Core Strategy and JP-G8 of the adopted Places for Everyone Joint Development Plan.

- 16 The development shall not commence until a Habitat Management and Monitoring Plan (the HMMP) has been submitted to, and approved in writing by, the local planning authority. The HMMP shall be prepared in accordance with the approved Biodiversity Gain Plan and include:

- a) a non-technical summary;
- b) the roles and responsibilities of the people or organisation(s) delivering the HMMP;
- c) the planned habitat creation and enhancement works to create or improve habitat to achieve the biodiversity net gain in accordance with the approved Biodiversity Gain Plan, including a timetable for its implementation and completion;
- d) the management measures to maintain habitat in accordance with the approved Biodiversity Gain Plan for a period of 30 years from the completion of development; and
- e) the monitoring methodology and frequency in respect of the created or enhanced habitat to be submitted to the local planning authority,

The created and/or enhanced habitat specified in the approved HMMP shall be completed, managed and maintained in accordance with the approved HMMP.

Notice in writing shall be given to the Council when the:

- a) HMMP has been implemented; and
- b) habitat creation and enhancement works as set out in the HMMP have been completed.

Monitoring reports shall be submitted to local planning authority in writing in accordance with the methodology and frequency specified in the approved HMMP.

Reason: To ensure the development delivers a biodiversity net gain on site in accordance with Schedule 7A of the Town and Country Planning Act 1990 and policies G6 and G7 of the adopted Rochdale Core Strategy and JP-G8 of the adopted Places for Everyone Joint Development Plan.

Reason for Pre-commencement: The HMMP will be required as part of the arrangements to be approved under the statutory BNG condition which requires submission of the Biodiversity Gain Plan prior to commencement of development.

- 17 The dwellings hereby permitted shall not be occupied until all vehicle parking space(s) have been provided in accordance with the plans hereby approved.

Reason: In order to ensure there is adequate provision for vehicles to be parked and adequate turning and servicing provision clear of the highway in order to comply with Policy T2 of the adopted Rochdale Core Strategy, Policy JP-C8 of PfE and the requirements of the National Planning Policy Framework.

- 18 No development shall take place until an investigation and risk assessment (in addition to any assessment provided with the planning application) has been submitted to and approved in writing by the Local Planning Authority. The assessment shall investigate the nature and extent of any contamination on the site (whether or not it originates on the site). The assessment shall be undertaken by competent persons and a written

report of the findings submitted to and approved in writing by the Local Planning Authority before any development takes place.

The submitted report shall include:

- i) a survey of the extent, scale and nature of contamination
- ii) an assessment of the potential risks to:
 - o human health,
 - o property (existing or proposed) including buildings, crops, livestock, pets, woodland, and service lines and pipes,
 - o adjoining land,
 - o groundwaters and surface waters,
 - o ecological systems,
 - o archaeological sites and ancient monuments;
- iii) where unacceptable risks are identified, an appraisal of remedial options and proposal of the preferred option(s)

The development shall thereafter be carried out in full accordance with the duly approved remediation strategy and a verification report submitted to and approved in writing by the Local Planning Authority before any of the buildings hereby approved are first occupied.

Reason: To ensure the safe development of the site in the interests of the amenity of future occupiers in accordance with Policy G9 of the adopted Rochdale Core Strategy and the National Planning Policy Framework.

Reason for pre-commencement condition: Further investigation will be necessary prior to commencement of any building or engineering works on site.

- 19 Notwithstanding the provisions of Part 1, Schedule 2, Article 3, of the Town and Country Planning (General Permitted Development) (England) Order 2015 (or any order revoking or re-enacting that Order with or without modification), no development within Class A (enlargement, improvement or other alteration), Class B (enlargement of a dwellinghouse consisting of an addition or alteration to its roof), Class C (other alterations to the roof), Class D (erection or construction of a porch outside any external door) or Class E (building or enclosure, swimming or other pool required for a purpose incidental to the enjoyment of the dwellinghouse) shall be carried out within the curtilage of the dwelling without express planning permission from the Local Planning Authority.

Reason: Due to the constrained nature of the site and as unrestricted development could harm the Greenspace Corridor and the level of amenity space of the proposed dwellings in accordance with Policy DM1 of the Core Strategy and the National Planning Policy Framework.

Procedure Statement:

The Local Planning Authority worked proactively with the applicant to identify various solutions during the application process to ensure that the proposal comprised sustainable development and would improve the economic, social and environmental conditions of the area and would accord with the development plan. These were incorporated into the scheme and/or have been secured by planning condition.

Date Decision Issued 13 March 2025

Melanie Hale
Head of Planning Services

IMPORTANT

PLEASE ENSURE THAT YOU HAVE READ AND FULLY UNDERSTOOD THE CONTENTS OF THIS DECISION NOTICE. YOUR ATTENTION IS DRAWN TO THE ATTACHED NOTES.

INFORMATIVE:

The Local Planning Authority's reasons for its decision are set out in the accompanying officer's report.

INFORMATIVE:

A S106 Agreement has been completed for this development. A copy of the S106 Legal Agreement is available on the Council's Public Register of Planning.

INFORMATIVE:

The applicant is reminded of the need to submit and obtain formal approval of those details required by the conditions of this planning permission before development may lawfully commence on the site. The formal discharge of a planning condition is currently subject to payment of an additional fee per request: £43.00 for householder applications and £145.00 in all other cases.

INFORMATIVE:

The proposed development lies within an area that has been defined by the Mining Remediation Authority as containing coal mining features at surface or shallow depth. These features may include: mine entries (shafts and adits); shallow coal workings; geological features (fissures and break lines); mine gas and former surface mining sites. Although such features are seldom readily visible, they can often be present and problems can occur, particularly as a result of new development taking place.

Any form of development over or within the influencing distance of a mine entry can be dangerous and raises significant land stability and public safety risks. As a general precautionary principle, the Mining Remediation Authority considers that the building over or within the influencing distance of a mine entry should be avoided. In exceptional circumstance where this is unavoidable, expert advice must be sought to ensure a suitable engineering design which takes account of all relevant safety and environmental risk factors, including mine gas and mine-water. Your attention is drawn to the Mining Remediation Authority Policy in relation to new development and mine entries available at:

Building on or within the influencing distance of mine entries - GOV.UK

Any intrusive activities which disturb or enter any coal seams, coal mine workings or coal mine entries (shafts and adits) requires a Mining Remediation Authority Permit. Such activities could include site investigation boreholes, excavations for foundations, piling activities, other ground works and any subsequent treatment of coal mine workings and coal mine entries for ground stability purposes. Application forms for Mining Remediation Authority permission and further guidance can be obtained from The Mining Remediation Authority's website at:

www.gov.uk/get-a-permit-to-deal-with-a-coal-mine-on-your-property

What is a permit and how to get one? - GOV.UK (www.gov.uk) In areas where shallow coal seams are present caution should be taken when carrying out any on site burning or heat focused activities.

If any future development has the potential to encounter coal seams which require excavating, for example excavation of building foundations, service trenches, development platforms, earthworks, non-coal mineral operations, an Incidental Coal Agreement will be required. Further information regarding Incidental Coal Agreements can be found here -

<https://www.gov.uk/government/publications/incidental-coal-agreement/guidance-notes-for-applicants-for-incidental-coal-agreements>

If any coal mining features are unexpectedly encountered during development, this should be reported immediately to the Mining Remediation Authority on 0800 288 4242. Further information is available on the Mining Remediation Authority website at: Mining Remediation Authority - GOV.UK

INFORMATIVE:

The applicant is advised that the supply and delivery of refuse containers (including all wheelie bins and food waste caddies) for residential developments is chargeable and the responsibility for these charges rests with the applicant/developer. The cost is based on a variable rate per property depending on the property size and number of bedrooms but as an indication, the present charge for a suite of three 240l recycling bins and one 240l refuse bin is £144 per residence. Please contact environmental.management@rochdale.gov.uk for a quotation for your development.

Under the Coal Industry Act 1994 any intrusive activities which disturb or enter any coal seams, coal mine workings or coal mine entries (shafts and adits) require the prior written permission of the Coal Authority since these activities can have serious public health and safety implications. Such activities could include site investigation boreholes, the piling of foundations, other ground works and any subsequent treatment of coal mine workings and coal mine entries for ground stability purposes. Failure to obtain permission to enter or disturb our property will result in the potential for court action. Application forms for Coal Authority permission and further guidance can be obtained from The Coal Authority's website at: www.gov.uk/get-a-permit-to-deal-with-a-coal-mine-on-your-property.

If any future development has the potential to encounter coal seams which require excavating, for example excavation of building foundations, service trenches, development platforms, earthworks, non-coal mineral operations, an Incidental Coal Agreement will be required from the Coal Authority. Further information regarding Incidental Coal Agreements can be found at: www.gov.uk/government/publications/incidental-coal-agreement/guidance-notes-for-applicants-for-incidental-coal-agreements.

In areas where shallow coal seams are present caution should be taken when carrying out any on site burning or heat focused activities.
