Assessment (Class B)

Class B of Part 1 of the Schedule to the GPDO allows for the enlargement of a dwellinghouse consisting of an addition or alteration to its roof subject to it not being contrary to any of the following criteria:

- (a) Permission to use the dwellinghouse as a dwelling has not been granted only by virtue of Class M,N,P, PA or Q of Part 3 of the GPDO

☒ **Complies**

☐ **Does Not Comply**

- (b) Any part of the dwellinghouse would, as a result of the works, exceed the height of the highest part of the existing roof;

☒ **Complies**

☐ **Does Not Comply**

- (c) Any part of the dwellinghouse would, as a result of the works, extend beyond the plane of any existing roof slope which forms the principal elevation of the dwellinghouse and fronts a highway;

☒ **Complies**

☐ **Does Not Comply**

Officer's note: While the proposed dormer would extend beyond the plane of an existing roof slope that fronts a highway, it is not considered that the north-facing elevation is the principal elevation. It is evident that nos. 2 to 28 Barleyfield Walk were designed to face onto the open land to the south. When approaching the terrace, the overall perception is that the main frontages and designed elevations of the houses are those facing the south. From the north the perception is that the elevations are rear elevations and this is emphasised by the enclosed garden and yard areas.

- (d) The cubic content of the resulting roof space would exceed the cubic content of the original roof space by more than-
- (i) 40 cubic metres in the case of a terrace house, or
 - (ii) 50 cubic metres in any other case;
