Assessment

Design and Visual Amenity: Are the following acceptable?

Impact on street scene, including subservience, terracing and building line	✓
Height and massing	✓
Facing materials and detailing	✓
Roof style	✓
Window proportions	✓
Bin storage	✓
Impact on trees	✓

The proposed extension would likely result in the storage of bins to the front of the application property and in public view. Whilst this is not ideal, it is noted that several properties along the building line have similar arrangements, with the bins stored to the front along the boundary. Therefore, on balance, it is not considered that the storage of bins to the front would result in undue harm to the visual appearance of the host property or street scene.

The design of the proposal is therefore acceptable and accords with policies DM1 and P3 of the adopted Rochdale Core Strategy, the SPD and the NPPF.

Residential Amenity: Are the following acceptable?

Impact on privacy, light & outlook of neighbours (to sides, rear and front)	✓
Light and outlook of application property	✓
Remaining garden space of application property	✓

The proposal is therefore acceptable in terms of residential amenity and accords with policy DM1 of the adopted Rochdale Core Strategy, the SPD and the NPPF.

Highways and Parking: Are the following acceptable?

Impact on highway safety	✓
Parking provision	✓

The proposal is therefore acceptable in terms of highways and parking and accords with policy T2 and Appendix 5 of the adopted Rochdale Core Strategy and the NPPF.

Recommendation: Grant subject to the following conditions

1. The development must be begun not later than three years beginning with the date of this permission.

Reason. Required to be imposed by Section 91 of the Town and Country Planning Act 1990 (as amended).

2. This permission relates to the following plans:
 - Location Plan. Dated 6th October 2023
 - Existing and Proposed Plans. Submitted on 1st March 2024

and the development shall be carried out in accordance with these drawings hereby approved.

Reason: For the avoidance of doubt and to ensure a satisfactory standard of development in accordance with the policies contained within the saved Rochdale Unitary Development Plan, the adopted Rochdale Core Strategy and the National Planning Policy Framework.

3. The materials used in the construction of the exterior of the development hereby permitted shall match those used in the construction of the exterior of the existing building in colour, form, type, size and texture.

Reason: In order to ensure a satisfactory appearance in the interests of visual amenity in accordance with policies P3 and DM1 of the adopted Rochdale Core Strategy and the National Planning Policy Framework.

Article 35 Statement

The proposal complies with the development plan and would improve the economic, social and environmental conditions of the area. It therefore comprises sustainable development and the Local Planning Authority worked proactively to issue the decision without delay.
