Discharge of Conditions

Please provide a full description and/or list of the materials/details that are being submitted for approval

Condition 04 - No development, excluding site clearance, remediation and ground preparation works, shall commence until a detailed surface water drainage and foul water drainage scheme, including surface water from paved areas, has been submitted to and approved by the Local Planning Authority. The schemes shall include/comply with the following:

Provision of a Maintenance Document explaining how the surface water scheme will be maintained and managed after completion; and,

Correspondence from Canal & River Trust to confirm their agreement of the arrangement with respect to discharge of surface water to the canal.

An investigation of the hierarchy of drainage options in the National Planning Practice Guidance (or any subsequent amendment thereof). This investigation shall include evidence of an assessment of ground conditions and the potential for infiltration of surface water in accordance with BRE365. If surface water is proposed to discharge to watercourse, evidence shall be provided to demonstrate acceptance of this approach by the LLFA and/or any other relevant body;

A restricted rate of discharge of surface water agreed with the local planning authority (if it is agreed that infiltration is discounted by the investigations);

Levels of the proposed drainage systems including proposed ground, finished floor and cover levels in AOD;

Incorporate mitigation measures to manage the risk of sewer surcharge where applicable;

No surface water will be permitted to drain directly or indirectly into the public sewer; and

Foul and surface water shall drain on separate systems.

The duly approved scheme shall be implemented prior to the first occupation of the dwelling hereby permitted and shall be retained as such thereafter.
