Description of the Proposal

Please note in regard to:

- **Fire Statements** - From 1 August 2021, planning applications for buildings of over 18 metres (or 7 stories) tall containing more than one dwelling will require a 'Fire Statement' for the application to be considered valid. There are some exemptions. [View government planning guidance on fire statements](#) or [access the fire statement template and guidance](#).
- **Permission In Principle** - If you are applying for Technical Details Consent on a site that has been granted Permission In Principle, please include the relevant details in the description below.
- **Public Service Infrastructure** - From 1 August 2021, applications for certain public service infrastructure developments will be eligible for faster determination timeframes. See help for further details or [view government planning guidance on determination periods](#).

Description

Please describe details of the proposed development or works including details of proposals to alter, extend or demolish the listed building(s)

Application for the change of use from an existing six-bedroom detached barn conversion dwelling (Use Class C3) to a residential children's home (Use Class C2), providing care and accommodation for up to four children aged between 10 and 18 years, to be registered with OFSTED. No structural alterations to the Grade II listed building are proposed. Internal modifications will be limited to the introduction of non-intrusive partitioning and the implementation of fire protection measures, all of which will be designed and undertaken with full regard to the preservation of the building's historic character, fabric, and significance.

Also include the proposal for their replacement, including any new means of structural support, and state references for the plan(s)/drawing(s).

A lightweight, reversible partition will be introduced to separate the kitchen from the living area, providing appropriate fire protection to this higher-risk space. The installation will not result in any damage to the historic fabric of the building and is designed to be fully removable at a later date, thereby ensuring the integrity and character of the property remain unaffected.

Materials

Does the proposed development require any materials to be used?

- ☒ Yes
☐ No

Please provide a description of existing and proposed materials and finishes to be used (including type, colour and name for each material) demolition excluded

Type:

Internal walls

Existing materials and finishes:

Not applicable. There is currently no wall separating the kitchen from the living space. The proposal relates to the introduction of a new stud partition only; no existing historic fabric will be removed or altered.

Proposed materials and finishes:

New 3" x 2" insulated timber stud partition, lined with fire-rated plasterboard, finished with multifinish skim and painted surface. The construction is lightweight and fully reversible, with no impact on the historic fabric of the building.

Type:

Internal doors

Existing materials and finishes:

The current internal doors are non-original oak doors installed by a previous owner, set within matching 35mm oak door frames with oak architraves. These are later additions and do not form part of the building's historic fabric.

Proposed materials and finishes:

It is proposed that all bedroom doors, the utility room door, and the internal garage door be replaced with FD30-rated 44mm six-panel fire doors, complete with fire-rated ironmongery, to provide the required level of fire protection. The bathroom door sets will be constructed to match in style for consistency, ensuring a sympathetic appearance throughout.

Supporting information requirements

Where a development proposal is likely to affect features of biodiversity or geological conservation interest, you will need to submit, with the application, sufficient information and assessments to allow the local planning authority to determine the proposal.

Failure to submit all information required will result in your application being deemed invalid. It will not be considered valid until all information required by the local planning authority has been submitted.

Your local planning authority will be able to advise on the content of any assessments that may be required.

Biodiversity net gain

Biodiversity net gain is a legal requirement for planning permission introduced on 12 February 2024. All applications are required to either provide detailed information proving there will be a biodiversity increase; or explain why the requirement does not apply to the development.

Do you believe that, if the development is granted permission, the general Biodiversity Gain Condition (as set out in [Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 \(as amended\)](#)) would apply?

- ☐ Yes
☒ No

Biodiversity net gain has been introduced as a general condition for planning permission. As set out in [The Environment Act 2021](#): "grants of planning permission in England [are] to be subject to a condition to secure that the biodiversity gain objective is met". Therefore, in England, all planning permissions are generally subject to biodiversity gain rules, unless they are specifically exempt or out of scope.

If you have stated that the biodiversity net gain requirement does not apply to your application you must provide the reason(s) why, and may also need to supply evidence (especially where you believe the application is eligible for the 'de minimis' exemption).

Please add all the reasons why biodiversity net gain does not apply and enter a justification for each one

Reason biodiversity net gain does not apply:

Development subject to the de minimis exemption (development below the threshold)

What best describes the size of your site?:

Under 25 square metres

Please justify the reason why biodiversity net gain does not apply:

The application is exempt from the general Biodiversity Gain Condition as it impacts less than 25m2 of habitat

Note: Please read the help text for further information why developments may be exempt or not in scope.

Do the plans incorporate areas to store and aid the collection of waste?

- ☐ Yes
☒ No
