Non-Material Amendment(s) Sought

Please describe the non-material amendment(s) you are seeking to make

NMA to the wording of condition 5 which will permit the remaining building on the site to be demolished. The only amendment sought is to add the following words 'other than the demolition of the building'.

The amended wording to the condition is below:

No development, other than the demolition of the building, shall take place until an investigation and risk assessment, in addition to any assessment provided with the planning application, has been submitted to and approved in writing by the Local Planning Authority. The assessment shall investigate the nature and extent of any contamination on the site (whether or not it originates on the site). The assessment shall be undertaken by competent persons and a written report of the findings submitted to and approved in writing by the Local Planning Authority before any development takes place. The submitted report shall include:

- i) a survey of the extent, scale and nature of contamination
- ii) an assessment of the potential risks to:
 - o human health,
 - o property (existing or proposed) including buildings, crops, livestock, pets, woodland, and service lines and pipes,
 - o adjoining land,
 - o groundwaters
 - o water courses to include Greenvale Brook and the canal drain which runs parallel with the eastern boundary of the site
 - o ecological systems,
 - o archaeological sites and ancient monuments;

ii) where unacceptable risks are identified, an appraisal of remedial options and proposal of the preferred option(s) to form a remediation strategy for the site. The development shall thereafter be carried out in full accordance with the duly approved remediation strategy and a verification report submitted to and approved in writing by the Local Planning Authority before any of the dwellings hereby approved are first occupied.

Reason: To prevent pollution of the water environment and to ensure the safe development of the site in the interests of the amenity of future occupiers in accordance with Policy G9 of the adopted Rochdale Core Strategy, saved Policy EM/8 of the adopted Rochdale Unitary Development Plan and the National Planning Policy Framework.

Please state why you wish to make this amendment

In order to formally commence the development it proposed that condition 5 is amended.

Section 55 of the Town and County Planning Act tells us when the 'time when development begun'. For building works development begins when 'any material operation comprised in the development begins to be carried out'. The general starting point is that to commence development, a material operation has to be (i) in accordance with the planning permission, and (ii) more than minimal. It is beyond doubt that the demolition of the building is a substantial material operation, and it is clearly in accordance with the approved plans. In addition, it is worth noting that all other pre-commencement conditions have been approved by the LPA. As such, the material operation as described would commence the development and as such the permission would have lawfully begun.

If such a non-material amendment was approved a DOC application would be made, without delay, in order to seek an approval of this 'new' condition.
