Biodiversity net gain

Biodiversity net gain is a legal requirement for planning permission introduced on 12 February 2024. All applications are required to either provide detailed information proving there will be a biodiversity increase; or explain why the requirement does not apply to the development.

[Find out more about biodiversity net gain, and access digital tools from our partners that can help determine if you are exempt, or produce the biodiversity metric information required.](#)

Do you believe that, if the development is granted permission, the general Biodiversity Gain Condition (as set out in [Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 \(as amended\)](#)) would apply?

- ☐ Yes
☒ No

Biodiversity net gain has been introduced as a general condition for planning permission. As set out in [The Environment Act 2021](#): "grants of planning permission in England [are] to be subject to a condition to secure that the biodiversity gain objective is met". Therefore, in England, all planning permissions are generally subject to biodiversity gain rules, unless they are specifically exempt or out of scope.

If you have stated that the biodiversity net gain requirement does not apply to your application you must provide the reason(s) why, and may also need to supply evidence (especially where you believe the application is eligible for the 'de minimis' exemption).

[You can use our partner's free online tool to determine if you are exempt and to produce detailed reasons.](#)

Please add all the reasons why biodiversity net gain does not apply and enter a justification for each one

Reason biodiversity net gain does not apply:

Development subject to the de minimis exemption (development below the threshold)

What best describes the size of your site?:

Over 25 square metres

Please justify the reason why biodiversity net gain does not apply:

the proposed works affect less than 25sqm of habitat

Note: Please read the help text for further information why developments may be exempt or not in scope.

Amendments Summary

Amendments made to local authority's comments:

- 1) The existing 'Volksmaster' Garage is labelled on the proposed site plan but not on the existing site plan. Please label on the existing also.
- 2) Please show details of how the proposed storage container will be accessed i.e. where is the door? Please update the proposed elevations and floor plans.
- 3) Please describe in more detail what the garage and storage unit will be used for? Will there be noisy works ongoing or will it be storage for car parts etc?
- 4) As this is a 'retrospective' application the description of the proposal has been amended, however the Design and Access Statement reads as if the unit has not been built yet - Please amend this.
- 5) The existing and proposed plans will need the drawing titles amending as the proposal is already built and therefore retrospective. The documents/plans need to acknowledge what has been built.
