Description

Please describe details of the proposed development or works including any change of use

External and internal refurbishment of a Public House. Internally it will be a cosmetic refurbishment with decorations, new light fittings, furniture and replacement floor finishes. Externally we are looking to repair the shop front timber cladding like-for-like, including decorations to the ground floor level. We aim to introduce a new single door fire escape from the pub trade area to the side of the venue. This will improve fire escape and maintain customer occupancy levels. The proposals also include forming of an internal accessible WC, which the venue doesn't have at present.
