

Biodiversity gain plan

Submit a biodiversity gain plan to show how your development will achieve biodiversity net gain.

When to use this form

A biodiversity gain plan shows how a development will achieve 10% biodiversity net gain (BNG). Submit this form to your local planning authority after they approve your planning application.

Unless your development is exempt, you cannot start the development until the LPA approves your biodiversity gain plan and biodiversity metric calculation tool.

1. Submission details

1.1 Date

For example, 3/11/2023

4. Biodiversity net gain strategy

4.1 Is the relevant date for the pre-development biodiversity value the same date as the planning application?

☒ Yes

☐ No

4.2 If no, what earlier date did you agree with the LPA?

4.3 How have you met the guidance on 'what counts towards your BNG'?

[Find out what you can count towards a development's BNG](https://www.gov.uk/guidance/what-you-can-count-towards-a-developments-biodiversity-net-gain-bng)

It is confirmed that the guidance at <https://www.gov.uk/guidance/what-you-can-count-towards-a-developments-biodiversity-net-gain-bng> has been implemented.

Only habitats that are created at the site have been counted.

None of the counted areas / habitats are considered / required to be contributing to other statutory obligations or policies such as SANG or river basin management plans (for example).

4.4 How will you avoid or minimise impacts to habitats?

Tell us about the steps you've taken on site, including to avoid or minimise the impact on irreplaceable habitats.

The assessment of BNG has secured the retention and enhancement by management of a high cover of habitats at the site namely retention of Habitats 1, 8 and 9 and the enhancement of Habitats 3, 4, 5, 6, 7 and 10.

The development area is focussed on grassland and an area of sparse ruderal vegetation only.

4.5 Did you use your local nature recovery strategy to inform the strategic significance of habitats?

This includes other specified strategies if you do not have a local nature recovery strategy.

☒ Yes

☐ No

4.6 How will you achieve the target net gain percentage?

- ☒ On-site
- ☐ Off-site
- ☐ Both

4.7 Are any of your on-site enhancements considered 'significant'?

[Find out what counts as a significant on-site enhancement.](#)

- ☒ Yes
- ☐ No

4.8 If yes, tell us about the significant on-site enhancements

Include the appropriate planning condition or how you've secured the habitat.

A HMMP has been prepared (and is required by Condition 16 of the planning consent) to describe the management and actions to be applied to enhance Habitats 3, 4, 5, 6, 7 and 10 at the site. The habitats are on-site and therefore the management will be secured by the commitments in the HMMP.

4.9 How many off-site biodiversity units do you need to meet 10% net gain?

0

4.10 Explain why you're using off-site biodiversity units

Only answer this question if you're planning to use off-site biodiversity units (250 words).

N/a

4.11 Explain why you're planning to use statutory biodiversity credits

Only answer this question if you're planning to use statutory biodiversity credits (250 words).
