Description

Please describe details of the proposed development or works including any change of use

Unit 1 intends to be used as an adult day care service which involves creating a safe, structured, and supportive environment where adults who need additional support can receive social interaction, support and meaningful activities for some hours during the day, while they continue to live at home.

The service supports people with learning disabilities, physical disabilities, mental health needs, or social isolation by promoting independence, reducing isolation, and improving wellbeing.

The day care centre will focus on person-centred support by skilled staff. The facility will focus on safeguarding vulnerable adults, tailored activities, and provide respite for families and carers thereby promoting the mental wellbeing of the whole community.

Biodiversity net gain has been introduced as a general condition for planning permission. As set out in [The Environment Act 2021](#): "grants of planning permission in England [are] to be subject to a condition to secure that the biodiversity gain objective is met". Therefore, in England, all planning permissions are generally subject to biodiversity gain rules, unless they are specifically exempt or out of scope.

If you have stated that the biodiversity net gain requirement does not apply to your application you must provide the reason(s) why, and may also need to supply evidence (especially where you believe the application is eligible for the 'de minimis' exemption).
