ASSESSMENT

Design, character and appearance

Paragraph 131 of the National Planning Policy Framework (henceforth the Framework) states that a fundamental aim of the planning system is the creation of high quality, beautiful and sustainable places. This is echoed in Policies DM1 and P3 of the adopted Rochdale Core Strategy, which seek to achieve high quality design which is reflective of local design patterns.

The application seeks permission for the construction of a first-floor extension above the garage. The proposed extension would be flush with the front elevation of the dwelling and would have a hipped roof.

The proposed extension is considered to appear appropriately subservient and in proportion to the existing dwelling. Whilst it is acknowledged that the proposed development would appear somewhat irregular within the street scene – given Chamber House Drive is a street scene with an established character in which there is a void above the garage – this irregularity is not considered significantly

detrimental to the visual character of the street scene to justify refusal in this instance.

Having regard to the above, the proposed development is considered to accord with Policies DM1, P3 of the adopted Rochdale Core Strategy, Policy JP-P1 of the Places for Everyone Joint Development Plan, and the design guidance of the Housing SPD and the National Planning Policy Framework.

Residential amenity

Regard has been had to the relative positions of windows, separation distances, the orientation and height of buildings and boundary treatments. It is considered that the proposal would not have a significant adverse impact on health or quality of life, having particular regard to residential amenity.

It is noted that all habitable rooms within the application property would continue to receive an adequate amount of natural light and that a sufficient garden space would be retained.

As such, it is considered proposed development would have an acceptable impact on the amenity of both the occupiers of the application property and the neighbouring properties, in accordance with CS policy DM1, the SPD, PfE policy JP-P1 and the NPPF.

Highways and parking

The application property would retain two off-street parking spaces and would have no unacceptable impacts upon highway safety in accordance with CS Policy T2 and CS Appendix 5.

Conclusion

Subject to the conditions set out below and taking into account the provisions of the development plan and all other material planning considerations, it is recommended that planning permission be granted.
