

Bespoke Deacon Bin Store

The Bespoke Deacon Bin Store from Bailey Streetscene is one of our best sellers due to its versatility. This is a quality shelter that can be made to accommodate any number of bins, including wheelie Bins.

The timber cladding is available in hardwood or softwood, giving you a choice of materials. The shelter comes complete with aluminium flashings to all sides and can also incorporate guttering to the rear. The shelter can also be powder coated to any standard RAL colour to suit your requirements.

If you want even more versatility and flexibility, the Deacon can also accommodate various front claddings eg. open fronted, mesh clad, timber clad or gated, can also have Bin Barriers installed which help protect the timber panelling from any potential damage caused by the wheelie bins colliding on the inside. The Deacon really is the perfect shelter for waste storage in schools, hospitals, and public spaces.
