APPLICATION REFERENCE: OTH/2026/0335

Applicant Motor Fuel Group Limited	Agent Jackie Ford Build Studios 203 Westminster Bridge Road Lambeth London SE1 7FR
--	---

Part I - Particulars of Application

Proposal: Submission of details to comply with Biodiversity Net Gain condition on planning permission 25/00944/FUL

Location: Morrisons Petrol Filling Station , Dawson Street , Heywood, OL10 4PN

Valid On: 13 April 2026

Your application for approval of details reserved by condition(s) has been dealt with and the details are set out below:

Condition(s) (1)

- 1 The effect of paragraph 13 of Schedule 7A to the Town and Country Planning Act 1990 is that planning permission granted for the development of land in England is deemed to have been granted subject to the condition “(the biodiversity gain condition”) that development may not begin unless: (a) a Biodiversity Gain Plan has been submitted to the planning authority, and (b) the planning authority has approved the plan. The planning authority, for the purposes of determining whether to approve a Biodiversity Gain Plan if one is required in respect of this permission would be Rochdale Borough Council. Based on the information available this permission is considered to be one which will require the approval of a biodiversity gain plan before development is begun because none of the statutory exemptions or transitional arrangements listed below are considered to apply. For the purposes of paragraph 13 of Schedule 7A to the Town and Country Planning Act 1990, a biodiversity gain plan is a plan which:

- (a) relates to development for which planning permission is granted, and;
- (b) specifies the matters referred to below:

The matters are:

(a) information about the steps taken or to be taken to minimise the adverse effect of the development on the biodiversity of the onsite habitat and any other habitat; (b) the pre-development biodiversity value of the onsite habitat; (c) the post-development biodiversity value of the onsite habitat; (d) any registered offsite biodiversity gain allocated to the development and the biodiversity and the biodiversity value of that gain in relation to the development; (e) any biodiversity credits purchased for the development; and (f) any such other matters as the Secretary of State may by regulations specify.

Decision: The Biodiversity Gain Plan (received 12/06/2026) and BNG metric (29/06/2026) are acceptable and shall be carried out in accordance with the approved details.

Date of Decision: 22/07/2026

Melanie Hale
Head of Planning
