Consultation Response on behalf of Head of Highways and Engineering

Application: PL-2026-0525

Date Received: 02 July 2026

Date of Response: 07 July 2026

PROPOSAL:

proposed installation of 4 outdoor padel courts with canopies, boundary fencing and associated clubhouse facility (re-submission of 25/00929/FUL).

CONSULTATION REPORT:

The application site is an existing mixed use sports facility.

The traffic generation associated with this additional usage is not expected to be problematic in the peak period.

The level of parking on site is adequate. The main operation of the sports club is at the weekend with much of the facility underutilised during the daytime and weekdays. The sports club is well removed from the strategic network and should overflow parking take place this is unlikely to impact upon the function or safety of the highway.

The proposed site access is existing and adequate for use.

No changes to the existing highways network are expected.

No new highways are proposed as a part of this proposal.

No PROW will be obstructed by this proposal.

We have no new road safety concerns as a result of this proposal.

Refuse collection and servicing from this location will continue much as existing.

AMENDMENTS TO CONSULTATION RESPONSE:

No amendments to report

OFFICER RECOMMENDATION:

We have no objection to this proposal at this location.
