ASSESSMENT

Design, character and appearance

The proposed development as amended remains in keeping with the character and appearance of, and is subordinate to, the original dwelling and surrounding properties, and the wider setting.

As such it is considered that the proposed extension and alterations would be acceptable, in accordance with CS policies DM1 and P3, the SPD, PfE policy JP-P1 and the NPPF.

Residential amenity

Regard has been had to the relative positions of windows, separation distances, the orientation and height of buildings and boundary treatments. It is considered that the proposal would not have a significant adverse impact on health or quality of life, having particular regard to residential amenity.

It is noted that all habitable rooms within the application property would continue to receive an adequate amount of natural light and that a sufficient garden space would be retained.

The amended extension would project on the eastern side adjacent to No 11 at a depth of 3m. Given the 1m distance between the two properties, the proposals still comply with the guidance contained within the SPD at section 5.8-5.10.

As such, it is considered proposed development would have an acceptable impact on the amenity of both the occupiers of the application property and the neighbouring properties, in accordance with CS policy DM1, the SPD, PfE policy JP-P1 and the NPPF.

Highways and parking

The application property would retain two off-street parking spaces and would have no unacceptable impacts upon highway safety in accordance with CS Policy T2 and CS Appendix 5.
