ASSESSMENT

Design, character and appearance

The proposed development is a 3.4m extension. It projects 3m adjacent to the adjoined boundary and then splays at a 45 degree angle to project an additional 0.4m. The extension is sited behind the existing two storey outrigger on the property and wraps around. The proposal is generally in keeping with the character and appearance of, and is subordinate to, the original dwelling and surrounding properties, and the wider setting. As such it is considered that the proposed extension and alterations would be acceptable, in accordance with CS policies DM1 and P3, the SPD, PfE policy JP-P1 and the NPPF.

Residential amenity

Regard has been had to the relative positions of windows, separation distances, the orientation and height of buildings and boundary treatments. It is considered that the proposal would not have a significant adverse impact on health or quality of life, having particular regard to residential amenity. It is noted the proposal would project 3m adjacent to the shared boundary with No 60 Cook St, however the proposal is in line with the SPD, and it is not considered the 3m adjacent to the boundary would have an unacceptable impact on the amount of light received into that property's rear downstairs window.

It is noted that all habitable rooms within the application property would continue to receive an adequate amount of natural light and that a sufficient garden space would be retained.

As such, it is considered proposed development would have an acceptable impact on the amenity of both the occupiers of the application property and the neighbouring properties, in accordance with CS policy DM1, the SPD, PfE policy JP-P1 and the NPPF.

Highways and parking

The proposed development would not remove any existing parking and would have no unacceptable impacts upon highway safety in accordance with CS Policy T2 and CS Appendix 5.

Conclusion

Subject to the conditions set out below and taking into account the provisions of the development plan and all other material planning considerations, it is recommended that planning permission be granted.
